CENTER DARDEDZE ANNUAL REPORT 2016

CENTER DARDEDZE is a non-governmental, non-profit organization that advocates for childhood free from abuse.

We are a team of psychologists, social workers and other professionals who:

1. assist children victims of physical, sexual, emotional abuse or neglect, and we also counsel their families;
2. proactively provide knowledge and skills for children, parents and professionals to recognize and prevent any sort of abuse;
3. conduct studies, organize public awareness campaigns and keep watch on the government's actions to protect children's rights in the country.

Our fundamental principles are the following:

- Every child has the right to live in safety.
- Every member of society has an obligation to proactively prevent abuse against children.
- When considering the fate of a child, it is necessary to consider his or her thoughts and involve him or her in decision making process.

It is of great importance to us that children are safe within their families, at school, during extracurricular activities, at childcare facilities, online and in society as a whole.
